Ron,

The proposed work was talked over with Henry Wherenberger (Comm. Schools) and the Wash. school principle and a sketch has been sent to Henry. At the time of the discussion (Sept. 14) they were in agreement with the plan.

I&M & Gen. Tel. have been sent sketches and both indicated they felt the design workable. A field check with both utilities is to be arranged next week.

Once final plans are set (probably one week away) the line work will require about one month to completion, which includes removal of old poles.

Dear Mr. O'Hara:

The final action on the vacation of subject alley is being held in this office since the following utilities have facilities in this location: Indiana and Michigan Electric Co., Northern Indiana Public Service Corp., General Telephone Co. of Indiana and Fort Wayne Water Pollution Control Engineering Department.

In order to complete this vacation, this office will need to have in its files either utility agreements or easements from the aforementioned utilities. One other course of action is available. This is to vacate the alley and retain the entire alley for easements.

Please advise your client, Fort Wayne Community Schools so final action can be taken.
